SimLab Composer

SimLab Composer is a 3D scene building, rendering, sharing and animation application.

SimLab Composer simply brings art to engineers and architects, it enables them to share 3D models with none technical users.

SimLab 3D PDF Sharing

By utilizing 3D PDF, designers are capable of sharing interactive 3D models, that can be opened using the **free Acrobat reader**. With SimLab Composer users can create top quality, branded, 3D PDF files ready for sharing and printing.

Create   **Share**   **Print**

Rendering

SimLab Composer includes a **photorealistic**, **fast renderer** . Just drag and drop materials from the rich material library, onto your 3D models and click Render.

SimLab Composer on iPad

Using the free [SimLab CAD Viewer](#), designers can share their models on iPad and iPhone.

Models will include **geometries** , **colors**, **textures**, **decals**, and **scenes states** created using SimLab Composer.

Exporting 3D HTML

SimLab Composer enabled users to export 3D WebGL inside html pages. 3D WebGL can be viewed by Internet Explorer, FireFox, Chrome and Safari, without requiring the installation of additional plugins.

10 Top Reasons to Choose SimLab Composer

1- Great features at a competitive price: get access to pro and quality features at a low price, starting at €99 for SimLab Composer 3D PDF edition.

2- Proven Technology: SimLab Composer has been trusted by thousands of users, including many 500 fortune companies, since 2007.

3- Very easy to learn: create impressive output results in few minutes (3D PDF files, Rendered images, and animations).

4- Responsive experienced support team.

5- Multiple sharing streams with non-technical users: export to 3D PDF, HTML, or iPad .

6- Multiple platforms support: whether you are using Windows, or Mac, SimLab Composer is supported on the latest version of your OS.

7- Supports Import/Export of multiple 3D CAD applications: top quality importers and exporters give users a trouble free workflow, no matter what design applications they are using. Free integration components for Solid Edge, SketchUp, Rhino, 3ds Max, Maya, Alibre are available for download, with many others to be available soon.

8- We listen to users' requests: send us your requests, and we will do our best to have them included in the next update.

9- Free trial: do not take our word for it, download a free trial and enjoy using SimLab Composer with your 3D models.

10- Install on two machines: with a single license of SimLab Composer, a user is eligible to install SimLab Composer on two machines.
